

Vishal Sudhakar Patil

 vishalpatil101 |  vishalpatil101

 Palghar, Maharashtra, India |  vishalspatil.695@gmail.com |  +919970470447

SKILLS

Language:	Block Based Programming, Android Application Development, Arduino C++, HTML, CSS, Python(Basic, Machine Learning and AI)
Libraries:	Pandas, Numpy, Matplotlib, Scikit, Tensorflow
Operating System:	Windows, Linux
Designing Tools:	Canva, Movavi Video Editor
Developer Tools:	Git, Github, Jupyter Notebook, Arduino IDE, Python IDLE, Scratch, MIT App Inventor, TinkerCAD

EXPERIENCE

Content Developer

MakerInMe Technologies, Bengaluru India

March 2023 - Present

- Responsible for curriculum designing and development for different courses based on in house kit-Cretile.
- Responsible for teachers training on courses offered by the company.
- Responsible for new kit development based on requirement.
- Responsible for overall content development (video, pdf, teacher resources, session plan, etc) for courses.

Product Manager - Academics

Makebot Robotic Solutions, Mumbai India

April 2019 - March 2023

- Responsible for curriculum designing and content creation for different courses offered by the company.
- Teaching programming languages (Scratch, HTML, Python, AI and ML, HTML) o Conducted product training of different robots to school teachers, partners and students.
- Mentor for robotic training program and perform the training/workshop/seminars in various schools and Engineering colleges..
- Mentor for robotics competition called "Makex" which is a global robotics competition arranged by China. o Hands on experience in programming different robots of Makeblock (mTiny, Neuron, mBot, Codey, Ranger, Ultimate, Halocode, Cyber Pi), Arduino, Raspberry Pi, NodeMCU, Orange Pi, Microbit, ALS robots, and so on.

Research Assistant

Maverickden STEM Robotics, Navi Mumbai, India

Jun 2017 - March 2019

- Responsible for designing/selecting robotic systems, run simulation. implementation, commissioning and programming.
- Mentor for robotic training program.
- Worked on different projects like garden management project, Wall plotter, Home Automation, Advanced ATM system, Maze game, LED cube, Garbage monitoring system, Car parking system, Arm robot, Mi-Robot, 4 in 1 Bot. Automatic train gate controller, and many more.

EDUCATION

Mumbai University, Mumbai • Bachelor of Engineering in Electronics and Telecommunication Engineering • CGPA - 8.90	2013 - 2017
Higher Secondary • Percentage: 69.83	2012 - 2013
Secondary School • Percentage: 87.27	2010 - 2011

PROJECTS

GradeWise Coding Books For Chetana Publication

Curriculum Head

- Responsible for overall developement of content in the form of text, images and videos.

MakeX World Robotics Championship 2019 and 2022

Product Manager

- Responsible for handling whole process of executing the competition.

CodingBee-World coding Competition

Program Manager

- Responsible for handling whole process of executing the competition.

Coding to Concept Program

Curriculum Developer

- Responsible for creating content on coding languages like scratch, HTML, Python and AI.

AWARD AND CERTIFICATIONS

MakeX Robotics Competition 2019

- Team won second prize in makeX Global Robotics compitition at national level and went to china for global championship.

Most Resourceful Employee of The Year

- Makebot Robotic Solutions.

Data Visualization From Great Learning

- Skills: Data Visualization, Data Collection, Numpy, Pandas, Machine Learning Algorithm and Python Programming.

Deep Learning From Great Learnng

- Skills: Data Structures, Advanced Python Programming and Machine Learning.

Supervised Machine Learning With Tree Based Model From Great Learning

- Skill: GUI Programming using Python, Supervised Machine Learning Algorithm, Python for AI.
