Books Published

India's Growth Illusion - who pays for India's Growth

Pencil

This book uncovers the hidden social, economic, and environmental costs behind India's rapid growth, highlighting the struggles of farmers, youth, and communities. It calls for a just and sustainable redefinition of progress rooted in dignity.

Humanity as a slave by Om Upadhyay

Pothi.com

This book invites readers to question the structures and illusions shaping our lives, offering a narrative of resistance and awakening. It challenges you to confront the human condition and embark on a transformative journey with Kaelen and Maya

We Found Death

Notion press

A virus from Ancient Egypt resurfaces through an artifact recovered by archaeologists, spreading after a plane crash. Two young archaeology students, exposed to the virus, must fight for survival as they become unwilling test subjects amidst political and diplomatic tensions.

Paper publication

India	Digital Humanitarianism and the Ethical Dilemma of Data Colonialism - IRC journal Digital humanitarianism uses AI, biometrics, satellite imaging, and crowdsourcing to improve aid delivery. My work highlights ethical risks like data colonialism and advocates for community-led, decolonial governance to ensure digital aid empowers vulnerable groups.
India	Multi terrain motion control vehicle - IJIRE Journal Gestures, mainly from hands or face, are used to interact with devices, interpreted via camera and computer vision techniques. Advances in robotics and human-machine interfaces have enabled robots to mimic humans and make autonomous decisions through gesture control.
