PROFESSIONAL SUMMARY

Senior Project & Program Management professional with 9+ years of experience, including 6+ years leading large-scale, technology-enabled education programs across multi-school and multi-city ecosystems. Proven expertise in PMO operations, digital infrastructure deployment, robotics & advanced STEM lab implementation, IoT-enabled learning systems, and blended/virtual education platforms.

Strong at bridging technology, pedagogy, and operations, backed by early-career experience in technical service delivery and operations management, providing a solid foundation in process discipline, customer handling, and field execution. Experienced in CSR- and foundation-driven programs, delivering scalable, inclusive, and future-ready education solutions with measurable impact.

PROFESSIONAL EXPERIENCE

05/2020 – Present
Delhi, India

Edvicon Edtech / Edvicon Technologies Pvt. Ltd.,

Senior Program Manager - Program Management Office (PMO)

- Lead end-to-end program management for large-scale technology-enabled education initiatives across Amity International Schools, Apeejay Schools, and other national networks.
- Plan, deploy, and monitor Digital Classroom & Smart Infrastructure projects, ensuring system uptime, teacher adoption, and classroom usability.
- Oversee design, setup, and standardization of Robotics & Advanced STEM Labs, integrating:
 - Robotics & Automation systems
 - IoT and sensor-based learning projects
 - Arduino, ESP32, Raspberry Pi controllers
 - AI concepts and applied ML fundamentals
 - Reverse Engineering-based analytical learning models
- Guide IoT-enabled learning systems, including basic web-server-based device monitoring and control for educational demonstrations.
- Support innovation programs covering aerodynamics, applied physics, mechanical design, and prototype development.
- Manage rollout of tablet-based, personalized digital learning platforms and virtual/blended teaching models.
- Own PMO governance: project planning, risk management, quality assurance, documentation, and leadership reporting.
- Define and track KPIs: delivery timelines, budget adherence, utilization, adoption rates, learning outcomes, and operational reliability.
- Lead and manage 30+ trainers, educators, and technical staff across multiple cities.
- Drive vendor and OEM management: procurement, SLAs, upgrades, issue resolution, and deployment planning.
- Delivered ~70% growth in STEM program reach and effectiveness (2023-24) through KPI-driven monitoring and optimization.
- Execute CSR-led STEM initiatives focused on girls and underprivileged learners, ensuring equitable access to advanced technology education.

05/2020 – 07/2021	Edvicon Edtech / Edvicon Technologies Pvt. Ltd., <i>Project Manager - Technology Programs</i> • Managed execution of school-level technology projects with strict schedule, cost, and quality control. • Supported transition to centralized PMO frameworks and standardized deployment models. • Coordinated between academic teams, vendors, and school leadership.
07/2019 – 05/2020	Edvicon Edtech / Edvicon Technologies Pvt. Ltd., <i>Robotics Engineer</i> • Designed and implemented Arduino, ESP32, and Raspberry Pi-based robotics & IoT projects. • Worked with sensor systems, automation logic, and basic web-based monitoring interfaces. • Supported lab commissioning, documentation, testing, and teacher technical training.
06/2018 – 03/2019 Bhandara, Maharashtra	Mahindra Group, <i>Store Incharge</i> • Managed store-level inventory, operations, and daily coordination. • Ensured process compliance, asset control, and operational efficiency. • Coordinated between vendors, internal teams, and management for smooth operations. • Built strong grounding in operations discipline, reporting, and accountability.
06/2015 – 05/2016 Mumbai, Maharashtra	Tikona Infinet Ltd., <i>Technical Service Engineer</i> • Provided field-level technical support for broadband and network services. • Handled customer issue resolution, fault diagnosis, and network troubleshooting. • Worked closely with operations and escalation teams to meet service-level commitments. • Developed strong fundamentals in customer handling, field execution, and technical problem-solving.

EDUCATION

Bachelor of Engineering (Electronics & Communication Engineering), *Nagpur University*

Diploma in Electronics Engineering, *Shri Baburaoji Tidke Polytechnic, Nagpur*
