Profile

Experienced and passionate Robotics & Coding Trainer with expertise in developing and delivering engaging K-12 curricula. Skilled in teaching diverse age groups and fostering creativity, logical thinking, and problem-solving through hands-on learning. Adept at curriculum design, instructor training, and integrating emerging technologies like IoT, AR/VR, and autonomous systems into education. Committed to continuous learning, exchanging knowledge, and leveraging my skills to inspire young minds while contributing to the growth and mission of the organization.

Employment History

Assistant Manager and STEM trainer, Blix , Mumbai

February 2023 — Present

- Teach **robotics and coding** to students from **Grade 1 to Grade 8**, shaping their logical and creative thinking.
- Prepare and deliver structured **K-12 robotics and coding curriculum** aligned with modern education standards.
- Train students in **PictoBlox, Python, and C++**, focusing on coding fundamentals and real-world applications.
- Guide students in the **construction of robotic models**, understanding their working, and applying concepts of **autonomous systems and automation**.
- Conduct hands-on sessions in building **LEGO-type models**, enhancing creativity and engineering skills.
- Develop and mentor instructors by **conducting training sessions**, sharing teaching techniques, and building their technical expertise.
- Design and implement projects using **IoT, microcontroller programming, AR/VR tools**, and other cutting-edge technologies.
- Create **LMS (Learning Management System) content** for robotics and coding courses, ensuring ease of teaching for educators.
- Contribute to **technical content writing** for curriculum and project documentation.
- Plan, prepare, and organize **Robotics Techfest, workshops, and competitions**, encouraging innovation and teamwork among students.
- Lead and manage **student competitions**, ensuring smooth execution and fostering a competitive spirit.

Coding instructor, Jetlearn, Mumbai

October 2023 — September 2025

- Teach coding and robotics to kids (ages 8-12) in online classes.

- Deliver lessons on **Scratch, Roblox, and Minecraft** for block-based coding.
- Guide students in **Micro:bit projects** linking coding with hardware.
- Train kids in **app design and coding** using Thunkable and similar tools.
- Introduce **Python programming** and game development basics.
- Teach beginner-friendly **website development** (HTML, CSS, tools).
- Create lesson plans, coding challenges, and hands-on projects.
- Adapt teaching methods to different learning levels and paces.
- Build student skills in **logic, creativity, and problem-solving**.
- Explore and use new **edtech tools** to enhance learning.

STEM Trainer, OLL (N.L Dalmia High School), Mumbai

March 2022 — February 2023

Work with students in a classroom setting, providing instruction and hands-on experiences with robots.

Planning and teaching robotics lessons and labs. Writing assignments, quizzes, and tests.

- Thorough understanding of theoretical principles of robotic engineering.
- Strong computer programming ability.
- Highly creative problem-solving skills.
- Active listening.
- Classroom management.
- Planning primary/secondary school curricula.
- Communicating effectively.
- Student behavior management.
- Proficient in the use of smart whiteboards.
- Playground monitoring.
- Problem-solving.

Coding Instructor , WhiteHat Jr, Mumbai

June 2020 — January 2023

- Experienced in training wide groups of adults to enhance their coding and math skills as well as expanding their coding abilities.
- Engaging classroom presence, value in real-world learning, exchange of best practices, and a lifelong love of learning
- Handle different coding platforms for kids like replit, code.org, scratch, tinkercad, Thunkable, Minecraft, Roblox, Jupiter notebook, etc.

Education

Data Analyst, IMS proschool, Mumbai

January 2021 — September 2021

Learnt languages like Python , R , Sql , Tableau.

Certification in HTML and CSS, Udemy, Mumbai

March 2022 — May 2022

Completed a certification course on how to build real-world websites using HTML and CSS to enhance my skills.

Bachelors of Science, K.C College, mumbai

Hindi

Gujarati

May 2019

- Done my Graduation in Bachelor's in microbiology with 7 CGPA

Higher Secondary Certification, Sophia College, Mumbai

May 2016

- Graduated Higher Secondary Certification with 54.3%

Secondary School Certification, Taiyebiyah Girls High School, mumbai

May 2014

- Graduated Secondary school certification with 80.6%.
