Komal Pawar

Associate Manager
Mumbai, Maharashtra, India

Summary

Seeking an opportunity in a well-known organization to show my talent and prove myself by hard work, perseverance and dedication. I am looking for a platform to apply my acquired knowledge and skills as well as make an impact in the professional world. Highly adaptable and open to new environments; ready to take on a challenging and stimulating role in your firm. My goal is to get into software development and be successful in this field with the help of my hardwork and honesty. My objective is to do work in a positive environment that inspires me to innovate and enhance my skills while fulfilling organizational goals

Experience

RWS Group

Associate Engineering Line Manager
November 2024 - Present (1 year 8 months)
India

An Associate Engineering Line Manager (AELM) typically holds a supervisory role within an engineering or technical team. Their responsibilities involve managing a team of engineers and ensuring the successful delivery of projects while supporting the growth and development of individual team members.

bitLabs
