WORK EXPERIENCE

Robotics Trainer India STEM Foundation

11/2019 - 08/2022

Roles

- Working on Innovative Robotics Kits, microcontrollers, and Curriculum.
- Prepare students for national and international innovation competitions.
- Managing STL (STEM Tinkering Labs).
- Developing innovative Teaching Learning Material (TLM), Publications, and Kits etc.
- Conducting Sessions in Teachers Training Program.

Research and Development Engineer Telaverge Communications

09/2022 - 03/2025

Roles

- Designed and delivered training programs integrating advanced robotics research
- Mentored learners in prototyping, programming, and innovative problem-solving
- Led research projects, bridging academia and industry applications
- Developed robotics curricula aligned with emerging trends and technologies

Makerspace Manager Qonevo Technologies

04/2025 - Present

Roles

- Primarily handling **Shalom Hills International School**
- Facilitated project-based learning, prototyping, and innovation initiatives
- Organized workshops, hackathons, and hands-on maker activities
- Supported curriculum integration with makerspace projects and STEM activities
- Built a collaborative, inclusive maker community and mentored interdisciplinary teams

VOLUNTEER EXPERIENCE

Data Science Trainer NetApp Inc.

Robotics Trainer Acetians Technologies

SKILLS

Embedded Systems

Embedded C

IOT

Arduino UNO

Node MCU

EDUCATION

B. Tech. Abdul Kalam Technical University

2014 - 2018

Intermediate Uttar Pradesh Board

2013 - 2014

Highschool Uttar Pradesh Board

2011 - 2012

CERTIFICATES

Embedded Systems (07/2016 - 08/2016)

Unicad Desk, Kanpur

INTERESTS

Automation and Control Systems

Artificial Intelligence and Machine Learning
