g.kishore438@gmail.com • +91-7204863438 • Bengaluru, India • www.linkedin.com/in/kishore-g-b32b2b101/

---

Content & Product Leader with 10+ years of EdTech experience at the intersection of pedagogy and product management. Proven expertise in leveraging AI and scientific learning frameworks to drive student engagement, improve outcomes, and scale platforms. Adept at leading cross-functional teams to launch high-impact features that boost revenue, increase DAU/MAU, and secure long-term retention.

## CORE COMPETENCIES

---

- **Adaptive Learning & AI Innovation:** Championing the shift to Personalised Adaptive Learning journeys. Experienced in initiating R&D for automated misconception detection and leveraging AI to streamline content pipelines without sacrificing pedagogical integrity.
- **Cross-Functional Strategic Leadership:** A decade of experience aligning SMEs, Engineering, QA, and Content Innovation teams. Skilled at bridging the gap between curriculum and product to deliver cost-effective, scalable digital transformations.
- **Pedagogical Product Architecture:** Expert in building learning frameworks using the Singapore CPA approach and Ebbinghaus's Forgetting Curve. Proven ability to move beyond "digital textbooks" to create scientifically backed tools that measurably improve student retention.
- **Gamification & Behavioural Design:** Specialized in designing features for the K-12 demographic. Successfully implemented live challenger quizzes and gamified loops (badges/leaderboards) that significantly scaled DAU/MAU through organic engagement.

## PROFESSIONAL EXPERIENCE

---

### Bryt Learning Technologies

Hyderabad (Remote)

#### Sr Digital Learning Manager

July 2025 – Present

- Scaled Tutor App engagement by **60%**, increasing usage from **6.9k to 11k MAU** and reaching a **44% penetration rate** across the **25k student population (Grade 1-5 ESL)**.
- Spearheaded the **digital transformation** of traditional textbook content into a dynamic digital learning platform, ensuring seamless integration between **Academic (35%)** and **Product (65%)** teams.
- Trained the academic team to write **detailed AI prompts** for complex tasks, increasing content creation **productivity by 3x (reducing typical 3-week authoring cycles to 1 week)**.
- Improved in-app AI responses for hint and feedback generation, successfully clearing an average of **2-3 learning misconceptions per user session** through research-backed **Personalised Adaptive Learning** models.
- Led the successful rollout of an **AI-powered Digital Assessment (Test Generator)**, entirely **nullifying printing and logistics costs** while saving teachers up to **5 hours per week** via efficient **auto-grading**.
- Boosted overall **school retention from 83% to 96%** by implementing proactive engagement strategies that kept **KDMs invested**, alongside introducing "Parent Corner" and "Bryt Buzz" to update parents on proficiency reports and school activities via app and WhatsApp.

### Cerebry

Noida (Remote)

#### Content Head

August 2020 – June 2025

- Achieved a **37% improvement** in student test results during a rigorous evaluative testing phase with a leading Indian online tutoring unicorn.
- Initiated and managed an internal innovation team to build concept breakdowns and proactive **misconception detection algorithms**, improving student **engagement by 8x**.
- Slashed overall **content development costs by 25%** (saving hundreds of hours in manual SME effort) by pioneering the strategic use of **AI in content creation** pipelines.
- Secured vital **B2B contracts from Ministries of Education (MOEs) in Middle East** to conduct mock tests for international exams (**PISA, TIMSS**), resulting in improved mean test scores, higher practice volumes, and extended session times.

- Retained more than **62% of the B2C customer base** during a critical transition by actively participating in a major **pricing restructure** focused on **customer willingness-to-pay** rather than base product cost.
- Spearheaded the R&D team to conceptualize and create targeted math manipulatives, directly addressing and solving the major problem of **drop-offs among lower-grade students**.

#### Quest Math

##### *SME Math*

**Bengaluru (Onsite)**

*April 2019 – June 2020*

- Set up **standardized processes** within the SME team to ensure structured workflows and seamlessly managed a network of freelance content professionals to **scale output**.
- Designed self-learning worksheets using **Singapore's CPA approach** for various international curricula.

#### Vidyanext (Quiz Next)

##### *SME Math & Lead*

**Bengaluru (Onsite)**

*August 2015 – March 2019*

- Generated over **60k organic app downloads** nationwide within just three months by pioneering targeted gamification features, including badges, leaderboards, and a robust rewards system.
- Devised a solution to **increase DAU and MAU** by deploying a live online challenger quiz directly within the app ecosystem.
- Designed and deployed scientifically backed, timed quizzes based on **Ebbinghaus's Forgetting Curve** to maximize **memory retention** in students.
- Provided valuable, continuous feedback during the development cycle of applications targeted at students, teachers, and parents, fostering a **cohesive digital environment**.

## SKILLS

---

- **Business Model Versatility:** Extensive experience operating and scaling products, driving product growth, and managing user engagement across B2B, B2B2C, and B2C environments.
- **AI Implementation & Execution:** Expert in writing detailed technical prompts, executing complex curation tasks, and developing rigorous test cases for AI validation and cross-verification.
- **Product & Program Management:** End-to-end management of digital product lifecycles, ensuring seamless feature deployment from concept to final launch.
- **Customer-Centric Problem Solving:** Designing tailored, user-friendly solutions for distinct user groups (students, teachers, and KDMs) to maximize app utility.
- **Business Landscape & Revenue Scaling:** Deep understanding of company-wide business goals; focused on providing scalable, revenue-generating models and reducing operational overheads.
- **Stakeholder Management:** Fostering engagement through clear communication channels, change-management training, and product readiness programs.

## EDUCATION

---

Bachelor of Engineering in Electronics and Communication | EWIT, Bengaluru | 2011-2015

## CURRICULA & TECHNICAL EXPERTISE

---

**Curricula Familiarity:** IGCSE, IB, Singapore GCSE, US CCSS, CBSE, ICSE

**AI & Productivity:** Gemini, ChatGPT, Claude, Microsoft Suite, Google Suite

**Project Management:** JIRA, Trello

**Design & Visualization:** Miro, Figma, Power BI

**Instructional Design & Authoring:** H5P, Adapt
