deepasarasu16@gmail.com | +919840752288

PROFILE

Enthusiastic IT professional with experience in coding, robotics, and AI/ML projects, along within programming and IT concepts. Skilled in hands-on project development, problem-solving, and applying technical knowledge to real-world applications

Work Experience

CODING AND ROBOTICS at Wizklub pvt ltd

Aug 2024 – Sep 2025

- Designed and developed software solutions and robotics projects (Smart Home Automation, Obstacle Avoidance Robot, Alexa-like Assistant) using Python, C++, Java, Arduino.
- Integrated hardware with software by programming microcontrollers, sensors, and actuators to create functional IoT and embedded systems.
- Debugged and optimized code for real-time robotic applications, ensuring reliability and efficiency in automation projects.
- Collaborated with teams to plan, test, and implement projects while maintaining documentation and version control practices.
- Trained and mentored students in coding, robotics, and project development, guiding them to successfully build and present innovative projects.

TECHNICAL EXECUTIVE at Computer Software College

Jul 2021 – Jan 2024

- Trained students in programming and IT skills, including C, C++, Java, Python, SQL, HTML, CSS, and MS Office, while simplifying complex concepts for better understanding.
- Guided students in practical projects and exercises, enhancing problem-solving and logical thinking skills.
- Provided support in project development and technical troubleshooting, ensuring smooth learning and hands-on experience.

Internship

Machine learning internship at **Shiash Info Solution pvt ltd**

Jan 2024 – Mar 2024

- Designed and implemented a dynamic pricing model using AI, Machine Learning, Python, Django and SQL to automatically adjust product prices based on demand, inventory, and customer behavior.
- Applied AI-driven predictive analytics and ML optimization techniques to maximize revenue while ensuring competitive and customer-friendly pricing.
- Developed a web-based interface with database integration, enabling real-time updates and seamless deployment for e-commerce platforms.

Education History

2024 - Pursuing

Master of Science | Information Technology

University of Madras - Chennai

CGPA: 7.28

June – 2024

Bachelor of Science | Computer Science

BSA Crescent University - Chennai

GPA: 8.63

March - 2021

Grade 12th | Computer Science

Government Girls Higher Secondary School - Chennai

GPA: 81.62%

Technical Skills:

- Programming: C, C++, Java, Python, HTML, CSS, SQL
- AI/ML: Machine Learning, AI-based project development
- Robotics & IoT: Arduino, ESP32, Sensors, Actuators, Motor Control, Alexa
- Hands-on project development and prototyping
- Analytical and debugging skills
