Jul 2014 - Dec 2014

Educator And Manager

Dream Flight Career Institute (Jaipur, Rajasthan, India)

Taught high school Physics to a range of students. Created performance tracking and evaluation systems for accurate reviews and grading. Maintained ongoing communication between student, parent and the faculty teams.

- Taught Physics (Classes 9-12, Boards, and Competitive Exams), improving student results and strengthening the institute's reputation.
- Scaled operations by introducing structured academic programs, performance tracking, and feedback systems, leading to higher student retention.
- Managed admissions, batch formation, and scheduling, streamlining academic and administrative processes.
- Built faculty coordination systems and SOPs, ensuring quality teaching and efficient operations.
- Strengthened parent and student trust through regular performance reviews and counseling sessions.
- Delivered engaging Physics classes, with a focus on conceptual clarity and exam readiness.

Achievements:

- Bolstered institutional reputation by improving overall results.
- Improved student retention through academic programs, performance reviews and ongoing feedback.
- Strengthened parent and student support via ongoing support mechanisms, student/parent counseling and strong teaching initiatives

Apr 2013 - Mar 2014

Educator

Home Tutor (Kota, Rajasthan, India)

Tailored and customized study plans to enhance performance. Provided continuous mentorship , coaching and guidance as required. Documented and relayed students' progress to stakeholders.

- Taught Physics and Mathematics, with an emphasis on conceptual clarity and problem-solving.
- Designed personalized study plans and practice sessions, tailored to individual student needs.
- Improved student performance, with many achieving top scores in school exams and competitive tests.
- Conducted regular assessments and doubt-clearing sessions, enhancing learning outcomes and confidence.
- Built a strong rapport with parents and students through progress reports and career guidance.

Achievements:

- Improved students' performance by personalizing plans and focusing on concept building.
- Gained strong parent relationships by ensuring consistent and transparent communication.
- Enhanced learning outcomes with consistent evaluation and review sessions.

Projects

Students Retention and Engagement

- Led end-to-end analysis of student retention across competitive exam cohorts (JEE, NEET, Foundation), identifying drop-offs during onboarding, mid-course fatigue, and post-test phases.
- Designed and implemented structured onboarding journeys to improve early-stage activation and reduce first-30-day churn.
- Deployed high-impact engagement levers including live class reminders, revision schedules, test-linked nudges, and doubt-resolution follow-ups.

- Raised and owned product enhancement requests with Tech and Product teams to build in-class and post-class engagement features such as live polls, real-time Q&A, post-lecture doubt resolution, peer-to-peer student interaction, and personalized performance dashboards.
- Partnered with academic, mentor, and operations teams to align content pacing and intervention strategies with learner readiness.
- Leveraged cohort and funnel analytics to track attendance %, test participation, content consumption, and completion metrics.
- Rolled out personalized mentor-led interventions and performance-based communication via WhatsApp and in-app channels.
- Conducted A/B testing on engagement nudges, revision prompts, and feature adoption to identify scalable retention drivers.
- Built leadership dashboards integrating academic, engagement, and performance signals for real-time cohort health tracking.

Key Outcomes

- Improved live class attendance by 35% across priority batches
- Reduced mid-course dropout by 25% through targeted mentor interventions
- Increased test participation and course completion by 17-18%
