37, 2nd Main Rd, Perumal Nagar, Old Pallavaram, Chennai, Tamil Nadu 600117

Profile Summary

Robotics Trainer and Embedded Systems Specialist with 5+ years of experience in STEM education, electronics, IoT, and AI project development. Expert in microcontrollers, robotics automation, computer vision, and 3D product design. Proven ability to design engaging curricula, deliver high-impact training programs, and mentor students to strong technical proficiency. Passionate about bridging engineering, education, and product development to build innovative and practical technology solutions.

Core Expertise

- Robotics Training & STEM Education
 - Microcontroller Programming (Arduino, ESP32, Raspberry Pi)
 - Embedded Systems Design & Development
- Electronics Circuit Design & Prototyping
 - Workshop Facilitation & Technical Mentoring
 - LMS Video
- Project-Based Learning & Training Delivery
 - AI & Computer Vision
 - IOT & 3D Printing

Technical Skill

Category	Skills & Tools
Microcontrollers & Boards	Arduino (Uno, Nano, Mega, MKR IoT), ESP32, ESP32-CAM, Raspberry Pi 4 Model B
Programming Languages	C++, Python, HTML, CSS, Block-based Coding
Robotics & Electronics	Robotics Automation, Electronics Project Design, Circuit Prototyping, Sensor Integration, Motor Control
IoT & AI	IoT System Architecture, Cloud Integration, Smart Automation, OpenCV, AI-based Vision Projects
3D Design & Printing	Fusion 360, Tinkercad, 3D Modeling, 3D Printing, 3D Printer Servicing & Calibration
CAD & Circuit Design	Circuit Design Illustrator, KiCad (Beginner – Educational Circuits)
Documentation & Design	Canva, MS Word, MS Excel, PowerPoint
Product Development	Product Research, Prototyping, Module Development, STEM Kit Design

Education

Diploma in Electronics & Communication Engineering (DECE)	2017-2019
VSVN Polytechnic College	
Secondary School Leaving Certificate (SSLC)	2015-2016
SMHSS - APK	

Work Experience

Robotics Engineer	April 2024 – March 2026
-------------------	-------------------------

MH Intellect | Chennai

- Deliver advanced STEM and robotics training to school and college students through structured learning pathways and hands-on projects.
- Design and execute industry-aligned robotics, automation, IoT, and AI projects for real-world application learning.
- Lead curriculum development, content creation, and instructional material design for STEM, robotics, and coding programs.
- Conduct Train-the-Trainer (TTT) programs, mentoring instructors and academic partners to ensure standardized, high-quality teaching.
- Design and produce high-quality LMS video content to enhance digital and remote learning engagement.
- Train 1000+ students, driving measurable improvements in technical skills, problem-solving, and project execution.

STEM Facilitator	2022-2024
------------------	-----------

Ispark Learning Solutions Pvt Ltd | Chennai

- Delivered structured robotics and STEM education programs to school students, focusing on hands-on, project-based learning.
- Deployed on-site at partner schools to design, implement, and manage robotics curriculum aligned with academic and skill-development goals.
- Applied strong technical expertise to guide students in electronics, mechanical assembly, sensors, microcontrollers, and coding fundamentals.
- Collaborated closely with school faculty to integrate STEM education into the academic framework.

Customer Relationship Manager	2021-2022
-------------------------------	-----------

Bibox Labs | Bangalore

- Started career in Customer Relationship Management (CRM), progressing to state-level lead for Tamil Nadu school operations.
- Managed ATL (Atal Tinkering Lab) school partnerships, tracking sales pipelines, onboarding, and program deployment.
- Gained hands-on experience in tender and tranche documentation, including application processing and compliance handling.
- Led and coordinated CRE teams, ensuring efficient trainer scheduling, deployment, and operational execution.

Declaration

I hereby declare that the information furnished above is true and correct to the best of my knowledge and belief.
